Professional Summary

Artificial Intelligence and Machine Learning undergraduate with hands-on experience in AI, machine learning, and full-stack development through academic projects and hackathons. Passionate about building practical software solutions while continuously learning and improving technical skills.

Education

Sahyadri College of Engineering & Management

Mangaluru, Karnataka

Bachelor of Engineering in Computer Science (Artificial Intelligence and Machine Learning)

2023 – 2027

- Current CGPA: 8.96/10.0 — Expected Graduation: March 2027

Technical Skills

Programming Languages: C, Python, JavaScript, SQL

Frontend: HTML, CSS, React.js

Backend & Databases: Node.js, Flask, MongoDB

AI/ML: TensorFlow, Scikit-learn, Keras, NumPy, Pandas, OpenCV, Computer Vision, NLP

Developer Tools: Git, GitHub, VS Code, Jupyter Notebook, Google Colab

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), Machine Learning

Projects

VISTA: Offline Multimodal AI Assistant | *Python, LLaMA 3.2, YOLOv8, BLIP-2, Piper*

Feb 2026 - Present

- Engineered an offline multimodal AI assistant using LLaMA 3.2 for local reasoning and orchestration with zero cloud dependencies.
- Fused BLIP-2 and YOLOv8 to deliver real-time visual captioning and object detection, ensuring total data privacy for image and video analysis.
- Integrated Whisper STT and Piper TTS into a low-latency pipeline to enable fluid, hands-free voice interaction entirely on local hardware.

News2Voice - Newspaper-to-Audio Converter | *Python, Google Cloud Vision API, gTTS*

Aug 2025 - Dec 2025

- Built web app converting news articles and PDFs into audio using Google Cloud Vision API for OCR and gTTS for speech
- Added multilingual support and OpenCV preprocessing, automating the full OCR-to-audio pipeline for diverse users
- Improved reading accessibility for visually impaired and non-literate users by enabling audio consumption of printed media

Edu Ease - AI-Powered Accessible Learning Platform | *Python, Flask, HTML/CSS, JS, TTS* **Sept 2024 - Nov 2024**

- Architected a full-stack web application (Top 30 at Vedha Hackathon) supporting students with visual and auditory impairments
- Improved accessibility for 3+ impairment types via TTS, STT, and visual aids with adaptive, gamified learning paths
- Enabled real-time progress tracking with multilingual, culturally sensitive multimedia content

Leadership & Campus Experience

Outreach Lead

September 2024 – Present

Google Developer Groups (GDG) On Campus SCEM

Mangaluru, Karnataka

- Lead outreach initiatives for 100+ students, organizing technical workshops on AI/ML and web development
- Coordinated technical events, including hackathons, coding competitions, and community engagement activities.
- Collaborated with Google Developer Experts to organize technical sessions on Google Cloud Platform and Firebase.

Technical Member

April 2024 – Present

Sahyadri Robotics Club

Mangaluru, Karnataka

- Contributed to robotics projects integrating AI/ML algorithms for autonomous navigation and object detection
- Developed computer vision modules using OpenCV and Python for real-time image processing applications
- Participated in inter-collegiate robotics competitions

Achievements & Certifications

- **Certifications:** Prompt Engineering, TensorFlow, Introduction to Data Science (Infosys Springboard).
- **Top 30 Finalist:** Vedha Hackathon.
- **Smart India Hackathon (SIH):** Won the college-level internal selection round (2023, 2024).
- **Top 10 Finalist:** IEEE CIS National-Level Hackathon.
- **Membership:** IEEE Student Member.
